**Subject:** The ban on UBER

Dear PSC,

I'm not sure who exactly is pressuring you to take action against uber, but it is really going to cause issues for the residents of South Carolina. I have lived in Greenville my entire life and can tell you the only alternative to taxi services (who are nearly impossible to obtain) is trying to see who has had the least to drink and have them drive. Uber was the one easy fast alternative in which we never drank and drove. Taking that away will cause many people to start using that alternative again. Please just let uber be, to cut down on the drinking and driving of so many South Carolina residents. Either bring back UBER or make the terrible taxis we have more accessible.

-Grant Trotter

**Subject:** UBER

SC streets are safer because of UBER it's not the other way around.

Less drunk drivers. Customers are willing to wait since they know when to expect their ride. Customers can order UBERs much easier than calling for a cab.

Customers aren't running out in the street waving down taxis.

Taxis are blocking traffic while the driver and customer exchange cash. This doesn't happen with UBER since payment is electronic.

Customers feel safer and prefer UBER.

Get with it people. This is ridiculous that you are preventing UBER. People want it. Stop preventing us from having it.

Shawn Hall  
Mount Pleasant, SC

**Subject:** Visiting Charleston is less appealing without Uber ...

Hello South Carolina,

My wife and I visit our inlaws in Charleston very often. We typically take an Uber from the airport, and also take it when we go out to dinner downtown. Finding a taxi in the CHS area is very unreliable. Driving is a hassle.

It would be great if you can revisit your decision. From my conversations with the many drivers I've encountered, they make a decent living by driving on the Uber platform.

Uber is an awesome service, the drivers are polite, on time and are not driving ten year old junk cars that smell like smoke and worse things. You can never rely on Charleston taxi services to be on time, can't count the number of flights we have missed due to the taxi service never showing up. I have never had that problem with Uber in any city.
